

FotoUniversia Contest

FotoUniversia

Guidelines

Universia prepares to launch the first edition of ***University Photo Contest: FotoUniversia***, aimed at students and teachers from higher education institutions in the country.

The competition is divided into five categories: **my university, my city, my friends, my travels and my favorite places** through which participants can make known their way of seeing life, since I live in with friends until the most important moments of their university life.

Participants can register the number of photos they want in the different Competition Categories.

In order to encourage and stress the creation and talent of young students, and allow the virtual community to view photographs, values and qualify, Universia Portugal launches the First edition of this project with the intention to implement it on **June 1st**.

The voting system is online, where the public can vote for their favorite photographs until September 1, when it completes the registration deadline for photographs. A jury assesses the most voted photos and pick a winner to be announced on the website of the competition. The Portuguese winner goes to the international final, where the winner earns € 3,000 international and a professional camera.
