INTERFRUTA II - Promotion of Fruits and Viticulture at the preservation and integrated production in the Macaronesian archipelagos

(Ref. 05/MAC/3.1/A4)

Caracterization:

The INTERFRUTA II is a cooperation project between the Azores, Madeira and the Canary Islands destinated to contribute to the promotion of horticulture and viticulture in the three partner regions, particularly in cultures of chestnut and vineyard, seeking a clearer understanding of these cultures, applying techniques that contribute decisively to improvement and that will increase profits derived them, looking for solutions to major problems and significantly improving both the training or the dissemination of information and technical research for the producer.
